A Newsletter of Shaanthi Literary Club

2024 - November issue

From the Clubs

As the term draws to a close, our school clubs have been bustling with vibrant activities, inspiring creativity, curiosity, and a passion for learning. This month's highlights include events of grand scale like, the Science Club's mega event - KREA, showcasing the innovative creations of the Krevators to the compost-making activities promoting sustainability by Eco Club, the term was enriched with a variety of engaging activities guided by experts.

Club Events

Photography Club – Hands-On Video editing Techniques

On 7th and 13th November, Students from classes S6 to S8 gathered in the CSC lab for an activity on video editing techniques. Mrs. Noor Ea Thahasin, the Computer Faculty, provided a detailed session on using Windows Movie Maker to create videos. The students were highly engaged and showed great interest as they learned the process of movie creation

Science Club – KREA

The KREA Science Fair held on 23rd November was a remarkable success, showcasing 111 creative projects by students of S4 to S11. It attracted 958 visitors, including 548 parents, 168 students from 3 government schools, 181 students from Periyakottai and MLP campus, 9 alumni and 9 media representatives, creating a vibrant and inclusive atmosphere. The Krevators projects were judged by three judges lending expertise and credibility. Media coverage further enhanced the school's reputation, while alumni participation fostered a sense of connection and continuity.

Harmonic Heights of Shaanthians – KREA 23-11-2024

The Literary Club's FM, *Harmonic Heights of Shaanthians*, added a vibrant touch to the KREA science exhibition. The event commenced with the Director's declaration and the KREA Anthem, followed by dynamic introductions to the exhibition halls and Kreavators' projects. Visitors were further engaged through live-broadcasted interviews, enriching the experience.

Literary Clubs

Tuesday Talkathon – JAM 19th and 26th November

The English Club organized an exciting "Just a Minute" activity, where students were challenged to speak on random topics for a full minute. This lively exercise enhanced their quick-thinking abilities and significantly boosts their confidence in public speaking, making it both an enjoyable and enriching experience.

Thirst Dayz – Word Art 21-11-2024

The English Literary club hosted a creative Word Art event, where students transformed randomly computer-generated words into artistic representations, skillfully using the alphabets to create visually appealing designs. This on-the-spot challenge showcased their imagination and artistic flair effectively.

Thirst Dayz – Idiom Interpretation 25-11-2024

The English Literary club organized an Idiom Interpretation event, where students creatively illustrated and explained the meanings of various idioms. This engaging activity encouraged participants to think critically, interpret figurative language, and showcase their artistic and linguistic skills.

Thirst Dayz – Riddle Me 28-11-2024

The English Literary Club's 'Riddle Me' activity captivated participants with clever riddles, sparking curiosity and teamwork. Students showcased their wit and problem-solving skills in a fun, engaging event that celebrated creative thinking.

Saturday Speaking Spree – Debate 30-11-2024

Students passionately debated on the topic "Is there life beyond earth?". Divided into teams, they presented compelling arguments, citing scientific theories, discoveries, and philosophical perspectives, sparking curiosity and lively discussions about the mysteries of the universe.

Saturday Speaking Spree – TED TALK 30-11-2024

Club members created impactful PowerPoint presentations and hosted TED-style talks on diverse topics. Themes included, Art of Mindfulness, The science of happiness and a few other inspiring and thought-provoking topics with valuable insights.

Drama Club – A Haunted School

A 6-minute play, The Haunted School, was done by the drama club on the 29th of November. It was a resounding success and left the audience intrigued and entertained. It demonstrated the participants' talent and dedication to the art of drama.

Eco Club – Junior Composting Pit Activity 26-11-2024

The Eco Club conducted a Composting Pit activity where students actively collected dried leaves and added them to a composting pit. They sprinkled water to initiate the decomposition process, learning the importance of sustainable waste management.

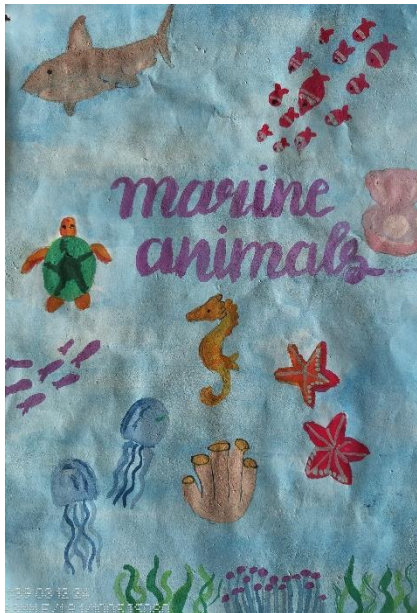

Eco Club – Seed ball preparation 29-11-2024

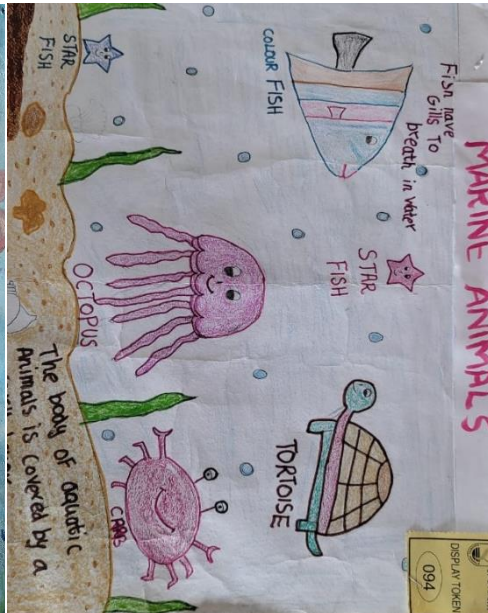

The Eco Club organized a seed ball activity where students collected tamarind seeds and mixed them with soil into balls carefully. These seed balls were then dried in the shade, promoting an eco-friendly initiative to support greenery and sustainable planting practices.
